

Declaration of Conformity

On June 8, 2011, the European Parliament and the Council of the European Union adapted directive 2011/65/EU („RoHS 2“), 2015/863/EU on the restriction of the use of certain hazardous substances in electrical and electronic equipment. This applies together with directive 2012/19/EU on Waste Electrical and Electronic Equipment (“WEEE”).

In compliance with its Company Policy, Trafag is committed to the economical use of energy and materials and to the avoidance of the use of materials or processes harmful to the environment. Adhering to directives 2011/65/EU (“RoHS 2“), 2015/863/EU and 2012/19/EU (“WEEE”) within the time frame stipulated by the EU is an obligation for Trafag which the company will fulfil in close cooperation with its suppliers whenever technical expertise allows its implementation even if exceptions of the directive were permitted.

Trafag herewith declares that the products supplied with this declaration of conformity meet the guidelines 2011/65/EU (“RoHS 2“), 2015/863/EU and 2012/19/EU (“WEEE”).

We are at your complete disposal for further information.
